

Network Engineer

Continental Divide Electric Cooperative, Inc. is seeking qualified applications for an Internet Service Provider (ISP) Network Engineer. The Network Engineer Position will develop complex network modeling analysis and planning at an ISP level. Network Engineer will define system's global designs, course and integration of current and future technology standards. Minimum ten-year relevant networking experience or Bachelor's in CS, MIS, IT, and six-years of relevant networking experience. Relevant areas include the following: BGP internet routing, DWDM, GPON, and point-to-point Wireless networks, VOIP, SIP and other voice routing protocols. Candidates certified with Cisco CCNA, CCNP, or equivalents preferred. Candidates will be asked to present network design samples, which include topologies and integration methods.

Please submit your resume to: Corina Sandoval csandoval@cdec.coop
